Designed specifically for the hospitality industry and public environments, the unique Anti-Bac Cartridge assists in the reduction of bacteria by up to 100%.

The cartridge simply snap-fits onto the air-intake, located at the rear of your hairdryer.

Turbo Regency Pistol
Product Code: R610

Turbo Regency

A unique combination of a shaver outlet and hairdrying unit that has the versatility and safety benefits of installation in any location. The international socket combination incorporates power surge and overload protection, plus childproof shuttered sockets. The handy appliance shelf lets you store your small appliance or recharge your mobile phone away from wet areas. The hairdryer gives you two-speed operation producing up to 1600 watts of drying power, yet offers an extremely low operating cost.

Turbo Duo Valette
Product Code: DV510

Turbo Duo Valette

The illuminated, magnified mirror is great for close-up vision when applying make-up. The versatile mirror is the perfect partner to the Turbo Hairdryer.
