

# World First S10 Anti-Bacterial Filter

Panache announce the release of the world's first revolutionary patented anti-bacterial filter for the S10 hand dryer! This revolutionary new filter has been clinically proven to kill up to 79% of the airborne bacteria blown onto the hands.

This innovative new technology dramatically reduces the risk of bacterial transfer and contamination associated with hot air drying in public environments, making the S10 the most hygienic hand dryer ever produced.

## Microbiologist Certificate

*I certify*

That I Dr David Coates Bsc Ph.D.  
have carried out microbiological tests to  
establish the effectiveness of  
Antibacterial Cartridges fitted into the

Panache S10 Hand Dryer  
*Commissioned by*  
(Hendon International Ltd.)

Tests were carried out in a male washroom  
in which aerial contamination with micro  
organisms from different sources was high  
The Anti-bacterial Cartridge system  
achieved a 79% Reduction in the total  
number of organisms
