

Why Buy Hand Dryers?

Save Money by Reducing Costs 90% Versus Paper Towels

Hand dryers achieve a 90% cost savings over paper towels. These savings are realised by eliminating the maintenance and operating expenses associated with paper or linen towels.

Because hand dryers are maintenance free and always on duty 24 hours a day you can:

- Eliminate repetitive paper towel purchases
- Eliminate labor to restock paper towel holders
- Eliminate labor to clean up paper towel mess

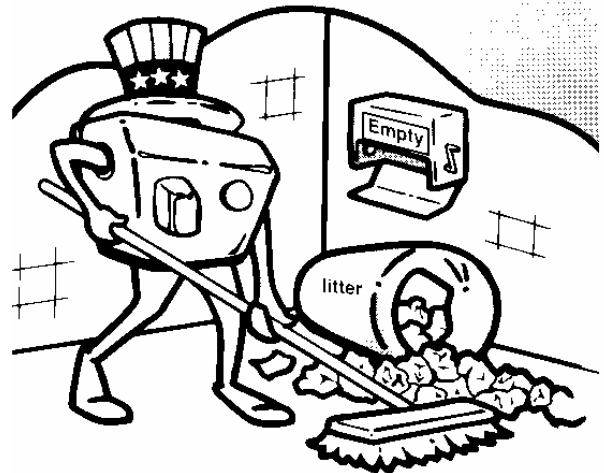

Annual Cost Savings Examples

Cost analysis prepared for a public school:

Paper Towel Usage	800 Cases
Total Paper Towel Costs	\$18,000
Hand Dryer Operating Costs	\$ 1,000
Annual Savings	\$17,000
Payback time	14 Months

Cost analysis prepared for a restaurant:

Paper Towel Usage:	30 Cases
Total Paper Towel Costs	\$675
Hand Dryer Operating Costs	\$ 38
Annual Savings	\$637
Payback time	12 Months

Save the Environment by Eliminating Paper Towel Waste

Hand Dryers Protect the Environment

A typical fast food restaurant uses 25 to 35 cases of 4,000 multi-fold paper towels annually. The results are:

- 9 fully grown trees are cut down
- 453.6 kg of landfill waste is generated (Paper towels can NOT be recycled)

Paper mills must cleanse the pulp with chemicals. A single treatment is capable of polluting 90,922 litres of water.

Paper towels can be made from recycled materials but cannot be recycled. Therefore, we need to avoid using them whenever possible to keep from adding to our landfills and depleting our natural resources.

Cleaner restrooms by Eliminating Unsanitary Paper Towel Mess

Several studies have been published in Peer-Review Medical Journals on health benefits and improved hygiene of warm air hand dryers.

Most experts agree that warm air hand dryers provide the most sanitary method of hand drying currently available.

- More Sanitary
- No Paper Towel Litter
- No Empty Towel Dispensers
